Language skills

Native: Serbo-Croatian, Hungarian
Advanced: English
Medium: German, Russian

Professional motivation

My diverse assignments made me capable for solving many types of tasks, and besides that I also like to learn new technologies and doing different types of jobs. I do my assignments with the biggest efforts of achieving the best results, with the greatest care of keeping the deadlines. My clients are satisfied and returning. Many years of freelancing taught me the importance of learning new technologies, keeping up with the current trends, and communication with the clients for understanding the requirements to finish the jobs successfully.

Services

Design and development of websites and interfaces (full-stack, front-end + back-end), using custom systems, commercial & open-source frameworks. Applied graphics, custom graphic solutions, graphic design and implementation, calligraphy and type-writing translation (analogue and digital).
